OUR PROCESS

Undertaking a custom cabinetry project can be a daunting prospect. This is why Dodge Cabinets are here every step of the way to ensure your cabinetry dreams come true.

The process begins with an initial discussion to understand your vision, followed by a site visit for precise measurements and a comprehensive quote. Once approved, depending on the scope of your project, we will create 3D designs for approval before manufacturing your project in our Lilydale factory.

Finally, our skilled team handles installation, bringing your custom cabinetry dreams to life with precision and care. Once the cabinetry is installed, finishing touches such as splashbacks and stone benchtops can be arranged.

Make your selections with confidence from a range of established brands known for their quality and reliability. Our showroom features a curated collection of surfaces, hardware and accessories from top brands like Janper, Nikpol, Polytec, Laminex, WK Stone, Caesarstone, Hettich, Titus Tekform and more. We offer products you can count on.
